The History of XiMED

Thirty years ago the independent physicians at Scripps Memorial Hospital La Jolla formed an organization called the Hospital Staff Medical Group (HSMG). It was formed in 1979 to give independent practicing physicians a voice in discussing the problems that face healthcare. HSMG would later change its name and become known as the XiMED Medical Group in 1992. The name XiMED (pronounced Zi-med) is a compound word, representing “EXcellence in MEDicine”, which has served as the group’s mission statement throughout its history.

Over the years, the physician leaders of XiMED have been a significant voice for the independent practicing physician and have comprised a substantial majority of the Chiefs of Staffs at Scripps Memorial Hospital. From a small cadre of formative physicians, the XiMED family today includes over 400 physicians and 5 separate companies: XiMED Medical Group, XiMED Physician’s IPA, XiMED Foundation, XiMED Hospitalists, and the Scripps/XiMED Medical Center.

Despite the many challenges that exist in healthcare today, XiMED Medical Group continues to move forward with innovative new companies and quality driven ideals. The doctor-patient relationship is the primary focus of XiMED’s healthcare mission. This guiding principle is as strong today as it has ever been. “Exceptional Doctors. Individual Care.”

We are located at Scripps Memorial Hospital, La Jolla
9888 Genesee Avenue, LJ-803, La Jolla, CA 92037

At your bedside.

What is a Hospitalist?

A Hospitalist is a physician who specializes in caring for patients while they are in the hospital. A Hospitalist manages all aspects of your treatment - from the time you are admitted until the time you are discharged. Your Hospitalist will not only provide you with around the clock care, but will also coordinate with all specialists and departments within the Hospital regarding your treatment. Upon discharge, your Hospitalist will also contact your Primary Care physician to arrange for follow-up care.

XiMED Hospitalists, Inc. provides Hospitalist coverage to patients who are admitted at Scripps Memorial Hospital. Our Board Certified Internal Medicine specialists provide coverage 24 hours per day, 7 days per week.

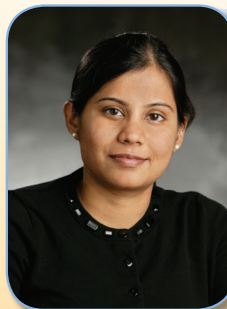

Our goal is to provide you with the highest quality patient care, in the most efficient manner possible.
